

Custom Audio Electronics Dual Inductor Wah Pedal - MC404

Model : -

Manufacturer : -

Manufacturer's Description: MC404: The CAE Wah allows you to switch between two distinctly-voiced Fasel® Inductors with a built-in Boost/Line Driver circuit, internal Q and gain controls, and bright status LEDs on each side of the pedal. The MC-404 CAE Wah was developed with the goal of creating a highly versatile wah-wah of top-grade components. It features dual Fasel inductors with two distinct voices and a built-in MXR MC-401 Boost/Line Driver adds even more flexibility. The MC404 CAE Wah was developed by Bob Bradshaw of Custom Audio Electronics and the Cry Baby design team with the goal of creating a highly versatile wah-wah of top-grade components. It features dual Fasel inductors with two distinct voices (high-end emphasis or low to mid resonance), and a built-in MXR MC401 Boost/Line Driver adds even more flexibility. Choose between inductors and turn the boost on or off with the side-mounted kickswitches; bright LEDs on each side of the wah indicate operation status. The MC404 boasts true hardwire bypass, a long-life CTS potentiometer, and internal pots for "Q" and gain adjustments. Here is a link to the manual (PDF):
