## NOS ECC83M/12AX7 Vacuum Tubes

Model : -

Manufacturer : -

NOS ECC83M Valves taken out of my new Laney AOR 3012. I replaced them all with Groove Tubes - just my own preference - there is nothing spectacular in the sound/tube behaviour. Nicely built with nice gain/volume and definition. ECC83M is a low noise version of the standard ECC83, so ideal for the first preamp valve position in any tube amplifier. These are highly sought after and a treasure to own.

**Price : £14.25**
