

Laney Pro-Linebacker PL100 Twin Speakers - Superb Guitar Amplifi

Model : -

Manufacturer : -

The Laney PL100 Twin is an absolute monster! Dual channel and you can mix with 2 sounds from both channels. It has re-verb for each channel and effect loop. All in perfect working order, rarely the odd crackle here and there which will go with a bit of cleaning. I have used it with acoustic guitar as well, and it has never let me down.

Please be aware, this amplifier is massively load but easy to control, from a bedroom to a stadium stage.

Please note: I have taken the grill of at some point and have since lost it. I brought a cloth for the front which I can send with the amp (just don't have the time to do it myself).

You're more than welcome to arrange an appointment to come and try.
