Ibanez AS83 VLS Artcore Semi-Hollowbody Electric Guitar in Stunning Flamed Maple

Model : -

Manufacturer : -

Here we have the amazing Ibanez AS83 VLS Artcore Semi-Hollowbody Electric Guitar in Stunning Flamed Maple, presented in near to new condition with next to no use. Setup with 009 - 042 strings with amazing action! The frets have tons of life ahead.

This Artcore model is an upgraded version of the popular Artcore AS73. This version features the same excellent ACH pickups and set neck design, but adds an outstanding Flamed Maple top. In fact, the whole semi-hollow body is flamed maple - an amazing feature for a guitar at this low price! The semi-hollow design increases sustain and reduces feedback, making this guitar a natural for high volume rock. Other details include a 3-piece maple/mahogany neck, 22 large frets, a bound rosewood fingerboard and the ART1 bridge.

When Artcore guitars debuted in summer 2002, they turned the music industry upside down. No longer were full and semi-acoustic guitars just big expensive jazz boxes for jazz players' even some of their competitors bought them (you just can't make this stuff up). With Artcore guitars you get an amazingly affordable price plus the quality and tone you expect from Ibanez, the guitar company with over four decades of experience making full and semi-acoustic guitars.

Specifications

- Neck Style: 3-piece Artcore
- Neck Material: Mahogany/Maple
- Body: Flamed Maple top, back and sides
- Frets: 22, large
- Bridge: ART1
- Tailpiece: Quickchange III
- Neck Pickup: ACH1
- Bridge Pickup: ACH2

Please note that the guitars overall condition is pristine, with the small exception of a tiny chip in the paint at the very top of the headstock (please see picture). Other than this, you would think that it's fresh out of the box for the first time, it really is that immaculate. Viewing is recommended, first to see will buy!

Price : £229.00
